

# MagiKats Summer Newsletter 2018

Sunderland (South)

Edition 7, JUNE 2018

## Here comes the Summer!

Doesn't it make you feel better when the sun is shining? Now that we are over half way through the school summer term, our students will be counting down to the six-week summer break!

Whilst some of our younger students have recently tackled their SATs in primary school, some of our older students are continuing to battle their way through the challenges of GCSE exams.

Here at MagiKats, we remain open over the summer period as we believe the summer is NOT the time to take a break. MagiKats workshops and summer core work are all of the interesting variety - not just number crunching or spelling lists. The work will, nevertheless, save children from the often disastrous fall back that can often happen between June and September.

Moving "up" a year or changing school is a very hard time for all children. Being at the top of their game can help and, of course, we then provide on-going support and continuity with the challenges of new environments, teachers, homework and so on.

## Important Dates for the Diary

**Wed 4<sup>th</sup> and Thur 5<sup>th</sup> July** –  
MagiKats workshops are closed for  
1 week holiday

**w/c 23<sup>rd</sup> July** MagiKats Summer  
Programme begins

*Do you know someone who may be interested in joining MagiKats? If you recommend a friend before the end of June who successfully enrolls on programme, we will offer you a £20.00 discount from your next monthly subscription payment.*

## Recommend a Friend!

# MagiKats Spring Newsletter 2018

So, what is the **Summer Programme** all about?

The MagiKats Summer Programme runs across the six week summer break.

The workshop continues to be fun yet focused, to help each student master new skills. By blending a few more (than usual) games and challenges your child will be guaranteed some fun along the way!

The Core Work pack turns into a set of Summer Challenges, which will be planned to suit the stage and age of your child. It will keep them busy over the summer break, whilst getting them to practice and develop their skills.

Children are welcome to stick to one subject or can join in with both maths and English activities if they wish,

At the end of the summer, we will hold a mini awards session where all MagiKats students will receive certificates and medals for their achievements.

The MagiKats summer programme is a great way to keep your child's brain switched on, without it taking over their summer holiday! It continues to link to the national curriculum and naturally allows your child to "brush up" their skills to give them that extra confidence when it comes to returning to school in September.

## FAQ – What if we go on holiday?

No problem, the summer workshops are planned flexibly to enable students to miss a couple if need be, but not fall behind on their overall programme.

## FAQ – I want my child to have a break from school work in the Summer. Can I cancel MagiKats and rejoin in September?

Yes, however we don't recommend it as children can fall back over the six-week break. The activities are fun and flexible with some challenges and competitions to keep all children entertained.

**IMPORTANT! – Due to limited availability of rooms at Silksworth Sports Centre, our Thursday workshops are moving to Tuesdays for the Summer Programme.** The workshop will run as a double session from 4.00pm – 5.30pm and all children can attend for the entire session.
